

REMARKS

This application has been carefully reviewed in light of the Office Action dated January 27, 2005. Claims 8 and 9 are in the application, both of which are independent. Claims 1 to 7, 10 and 11 have been cancelled. Reconsideration and further examination are respectfully requested.

The Examiner's attention is directed to the accompanying Letter Transmitting Corrected Drawings in which Figs. 6, 7a, 7b, and 7c have been amended to include a "Prior Art" legend as required by the Office Action. Accordingly, reconsideration and withdrawal of the drawing objections are respectfully requested.

The specification was objected to over an informality. In this regard, the specification has been amended as suggested by the Office Action. Accordingly, reconsideration and withdrawal of the specification objection are respectfully requested.

The title of the invention was objected to by the Office Action as being non-descriptive. The title has been amended to read "Sensing of Moving Images" and is believed to be descriptive. Accordingly, reconsideration and withdrawal of the objection to the title is respectfully requested.

Applicants thank the Examiner for the indication of allowable subject matter in Claims 8 and 9. In this regard, Claims 8 and 9 have been rewritten in independent form and are believed to be allowable. Furthermore, Claims 1 to 7, 10 and 11 have been cancelled without prejudice or disclaimer of subject and without conceding the correctness of the rejections, and merely to obtain an earlier allowance. It is Applicants' current intention to pursue the rejected claims in a divisional application.

No other matters being raised, it is believed that the entire application is fully in condition for allowance, and such action is courteously solicited.

Applicants' undersigned attorney may be reached in our Costa Mesa, California office at (714) 540-8700. All correspondence should continue to be directed to our below-listed address.

Respectfully submitted,
